RightAngle™ Products Creates Seamless Edge Banding

Schofield, WI. — RightAngle™ Products has announced fully automated edge banding capabilities for straight line worksurfaces that produce virtually invisible joins with state-of-the-art hot air technology. The resulting seam-free edge offers increased aesthetic appeal and is resistant to solvents, dirt, heat and moisture.

At RightAngle our top priority is finish quality. Features include precision edge processing for an optimum join quality with maximum adhesion and Lifetime Warranty. Our new edge material is fully recyclable, halogen free, odorless and is a very neutral polypropylene material. Beyond its general environmental friendliness, the edging offers higher UV resistance to fading. Worksurface colors that will be available in 4EVERedge™ are Maple, Cherry and White, with more colors to follow.

“Edges on our worksurfaces are just as important as the entire table, because if the finish is not perfect, it affects the overall quality of the complete table. At RightAngle™ we are ensuring the entire worksurface is perfect with seam-free edge banding utilizing the latest technology,” says Bill Knighton, President and co-founder of RightAngle™ Products.

RightAngle™ has developed products for more than twenty-five years utilizing the highest standards of design, engineering and production practices. Included in the product line are; NewHeights™ height adjustable workstations, R-Style™ office furniture, and a complete line of RightAngle™ ergonomic accessories.

RightAngle's™ facility is located at 6703 Zinser Street, Schofield, WI 54476. For more information visit the company website at raproducts.com, contact customer service at 800.298.4351 or info@raproducts.com.
