## **RightAngle™ Products Announces *NewHeights™ Series 4***

Schofield, WI. — RightAngle™ Products, manufacturers of ergonomic products and furniture for the workplace and beyond, is announcing NewHeights™ Series 4; our latest evolution in height adjustable workstations. The NewHeights™ Series 4 highlights the XT, LT, Gas Lift, Standard Crank and the newest technology in height adjustable tables, the Zūm.

NewHeights™ Series 4 is brand new from the floor to the work surface. Manufactured in the USA, with recycled aluminum and steel, a unique shape was created. This unique style is only possible with an aluminum product.

NewHeights™ Series 4 offers numerous advantages. The XT model offers 28" of travel, 24"-52". The LT features the similar style of the XT, while available for a great value. With the squeeze of the lever, the Gas Lift easily glides to the preferred height. The NewHeights™ Standard Crank is our value product that offers a true sit to stand workstation with 20" of travel. RightAngle's™ new Zūm table has a uniquely fast travel speed, while requiring zero electrical power.

"RightAngle™ is continually looking for practical and creative ways to use ergonomics to meet the needs of our customers. The NewHeights™ Series 4 offers a smart way for customers to incorporate a stylish and functional workstation into almost any space," says Bill Knighton, President and co-founder of RightAngle™ Products.

RightAngle™ has developed products for more than twenty-five years utilizing the highest standards of design, engineering and production practices. Included in the product line are; NewHeights™ adjustable workstations, R-Style™ office furniture, and a complete line of RightAngle™ ergonomic accessories.

RightAngle's™ facility is located at 6703 Zinser Street, Schofield, WI 54476. For more information visit the company website at [raproducts.com](http://raproducts.com), contact customer service at 800.298.4351 or [info@raproducts.com](mailto:info@raproducts.com).

To see the NewHeights™ Series 4 products in action, visit the RightAngle™ booth 8-3080 at NeoCon in Chicago on June 10-12.
